EXPERIENCE

TRINAL WEB PVT. LTD. | REACT DEVELOPER AND UI/UX DESIGNER
July 2022 – Present | Tiruchirappalli

→ **Core team member** at Trinal Web Pvt. Ltd., a Web3.0 based start-up run by university students.
→ Designed the UI using **Figma** and developed websites using **React JS** along with a team of 5 members.

ACCENTURE | ADVANCED APP ENGINEERING ANALYST INTERN
June 2022 – July 2022 | Virtual

→ Worked as an intern at **Accenture's AI-RISE team** under a cutting-edge Remote Sensing based project along with some folks from IIT-Bombay
→ Learned and used modern **Remote Sensing** technology, Sentinel-2, Landsat-8 satellites, and **Google Earth Engine**.
→ Developed a script which **automates** the process of downloading **300 plot's** NDVI and NDWI timeline in CSV format when their shape files are given as input.

SMOOSE | DESIGNER
June 2021 – August 2021 | Tiruchirappalli

→ Worked as a **UI/UX, Brand Designer, and Social Media Manager** at Smoose.
→ Designed interactive social media posts and stories (Instagram and Twitter). Gained around **100 new followers in 2 weeks**.

PROJECTS

NOTEZY - CHROME EXTENSION | JAVASCRIPT
2021

→ Modern Note Taking Extension that lets you organize your notes into pages, update, delete and **save your notes as PDF**.
→ Notezy uses your **Local storage** to store your notes, hence giving you complete control over your data and keeping your data secured.

INTERNATIONAL CONFERENCE WEBSITE | HTML, CSS, JS
2022

→ Built a modern yet minimal website for **International Conference on Wavelet Analysis and Graph Theory** which was organized by my university.
→ **Google Sheets API** was used to fetch and the data is displayed.

CLASSIFICATION OF WHITE BLOOD CELLS USING CNN | PYTHON
2022

→ Built a Deep Learning model which classifies WBC blood smear images into their types with an accuracy of **99% using ResNet50**.
→ The model was then deployed on the web using **Streamlit API**.
